NEWS FROM THE PLACEMENT / INTERNSHIP SERVICE

Maura Walsh, Director

Plans are moving ahead for some exciting programs this Fall. Phi Gamma Nu, the business sorority, will be assisting with coordination of visits to potential employers during CHOICES WEEK (October 20-24) and in planning workshops for interested students.

Dr. Mariette Sawchuk's career planning and counseling appointments will be handled by the Student Development Office. Please see Mary Ellen Gormican who will keep the appointment book. Dr. Sawchuk will be on campus Tuesday and Thursday mornings and will be available in the Faculty Lounge on the 3rd Floor.

For those students who did not receive a copy of the CAREER PLANNING GUIDE, please stop by my office. They are free, bright and colorful and are an excellent aid in helping you to think through the career planning process. Use them to keep career materials in and bring them with you when you see Dr. Sawchuk or myself.

Seniors - Foreign Service Careers

The Department of State, the Department of Commerce, and the International Communication Agency have a special interest in recruiting women and members of minority groups. The written examination for the Foreign Service will be given on December 6th, 1980. Successful candidates will be considered for further examination and eventual careers in any of the three above-named agencies. The deadline for application for this examination is October 24, 1980. Sample examination, applications and instruction booklets are available in Maura Walsh's office.

THE NEXT DEADLINE FOR THE STUDENT BULLETIN IS THURSDAY, OCTOBER 2nd AT 9:00am.

WHAT ARE THE "GOOD" DEGREES?

What happened to the class of 1980? We'll find out. Just as the price of wheat and corn on the commodity exchange makes news, so does the fate of college graduates when the annual surveys of graduating classes are published.

The high-school class of 1980 will take note of the results. Will going to college be worth it? What majors are in the greatest demand? the least? As one father put it, "After shelling out a bundle for tuition, I want to see a return on my investment. What are the good degrees?"

For the most part, the surveys cover only students who found jobs with organizations that recruited on campus. Not included is the larger group who graduate and then find jobs; also excluded are the graduate who began cooking hamburgers at McDonald's and ended up opening his own restaurant, and the one whose political career started with volunteer work in a campaign. But even if the information about the class of 1980 were complete, what use would it be to the class of 1984? Thirty years in college placement have taught me that the future is uncertain. Choosing a major by trying to outguess the job market is like speculating on corn futures.

When a student comes to see me, the way he walks in the door, greets me, and then describes his problem tells me more about his employability than his major. Bearing, manner, and expression are what I watch for - and assertiveness. You could say I look for polish, but not polish on ordinary stuff. Silver must show through. If what come through are the ability to do difficult mental work, an open mind with intellectual and cultural interest and curiosity, and a mature attitude, then I have found the type of student employers are scouring the country to find.

When students ask about the best major "career-wise," I suggest they select professors whose writing assignments are demanding and who grade on the basis of grammar and style as well as content. Give me candidates who can make a point in 10 words. Give me students who have included mathematics, physics, chemistry, and other sciences in their programs. Those courses are considered practical by employers, and - up to a point - courses should be chosen with employment in mind.

There is more to it, however, than academic window-dressing to attract employers. The class of 1984 will be propelled into the future by forces out of the past, some that are nature's work and others - economic, social, and cultural - that are man's doing. The future hangs on the ability to cope with those forces. The class of 1984 has its work cut out. As Frederick Henry Osborn wrote in The Human Condition, "Evolution is organic and unpredictable. But there are terms to be met if man is to have any future. He must not destroy himself with atomic weapons, or increase too much in numbers. He cannot himself lose the capacity or the motivation to continue his search for a better life, nor will he survive in a culture that does not change to meet new conditions."

A play is in progress. The plot concerns man's struggle to meet new conditions. On stage are entrepreneurs, politicians, and labor leaders - some wise, some foolish; all at times shortsighted, but nevertheless able to use our abundant resources to create the expanding economy that provided the basis for a free and democratic society. In the next act, the resources will be diminished and the economy restricted. Will a free and democratic society survive?

The act begins with the same old actors. Coming on stage to take their places are college graduates - some trained in professional schools to play a specific part, others from liberal arts colleges where they concentrated on

understanding the plot and finding meaning in the drama. But whether the actors are professionals with ready-made roles or liberal arts graduates who learn their parts on stage, conditions have changed and old scripts will no longer fit. The actors will have to create the script, and the play will no longer be just a play - it will become an adventure.

The best way to train for adventure is to be adventuresome - which students can be if they work at it. It's easier not to. It's easier to make friends in college who are just like the friends back home. It takes effort to know and appreciate people from different cultures and backgrounds. Saturday night after Saturday night can be the same old Saturday night - the same hangouts, the same crowd, the same chatter, the same music. An evening at the symphony or at a play, instead, could awaken unused portions of the brain. But the ultimate adventure is to be found in the library and the classroom, where, with diligence, a student can discover the great thoughts and works of man.

That is what I told the father who asked about the "good degrees." What he wrote to the president of my university about my advice was never revealed to me in its entirety, but the words that were quoted were: quaint, strange, impractical, and four others not to be repeated. I did give that father something of a sermon and probably got what I deserved. I should simply have passed on my perceptions. I might have told him that, in my role, I see all kinds of students, and that the ones who have ventured out of the ordinary and have become something other than ordinary are the ones who get the extraordinary jobs. I can't say what any father's son or daughter should study, but when I see a student who may be the sort of person I have in mind, I try to steer him or her toward a management position with the organization that manages my pension fund.

News Office Info

from Sister Anne Marie / Director

"Which political/social issues are shaping your world today?" That's what Jane Lundberg, business/pre-law major, and Sister Michele Therese Dumont, Philosophy Chair, will be speaking about at KNBC. Maybe you'd like to share some of your ideas with them before their October 8th taping? Air date will be announced later.

FREEBIES: To-You-with-News-for-Sharing is the yellow-colored news note, folded to the right size to enclose in a letter envelope. After reading the sheet yourself, you may want to mail it to a relative or friend...a good way to share the Mount and get people interested in your college. If you'd like extra copies of the notes or an 11 x 17 bicentennial map, ask Sheila at the Chalon mailroom, or Grace at the Doheny switchboard.

TV-AIRDATE for the program you saw being taped at Chalon on HORIZONS Day is Sunday, October 12th at 8:30am.

COMP Testing

The Testing Committee wishes to thank all Freshman students who participated in the COMP/ACT assessment on Tuesday, September 23rd. All participants will be notified when their results become available. The committee is grateful to all who cooperated and assisted in any way with the administration of the test, and especially appreciates the class scheduling accommodations made by instructors.

I Need a Ride!

Is there anyone who lives in or near the Northridge/Canoga Park area who could give me a ride to and from school for the month of November? (Of course I'll pay for the gas. . .) Please contact Bianca at 998-0978 after 7:30 pm weeknights (Mon. - Thurs.).

October 2, 1980

Dear Students,

Attached is a questionnaire which we have prepared concerning student life. Please take a little time to fill it out.

We believe this can be a year of many positive changes. Before we can take any action, however, we need to have the support of the students. We would like to be sure that we are working for what you, the students, want to see accomplished, and not just what the A.S.B. Board thinks you want.

We have come to the realization that we can accomplish the most by working through the system. Our requests and proposals must be mandated by the students and backed by adequate research. That is the reason it is so important that we have your responses to these questions.

Please number these issues from 1 - 8 (1 being the best, and 8 being the issue you are most concerned about.) Please feel free to list all positive and/or negative aspects of each.

Thank you very much.

Financial Aid News

Financial Aid clearance for Spring Semester will be held January 26 through February 6, 1981, in the Financial Aid Office. All students who are the recipients of any type of financial aid must pick up a clearance form.

If you are not the recipient of a California Grant A, B, or C for the 1980-81 academic year, you are strongly urged to apply for these programs for the 1981-82 year. Application forms are now available in the Financial Aid Office. DEADLINE: Feb. 12, 1981.

Urgent!

Cal Grant A recipients and all others benefit from the Cal Grant (State Scholarships) Programs. You all stand to benefit even more by urging Governor Brown to increase the funding of the Cal Grant A Program at least enough to maintain the Program and, ideally, enough to increase the amount and number of awards.

All of us who pay taxes subsidize every student attending a public, tax-supported California state university to the amount of \$4,026 each.

The maximum award a Cal Grant A recipient can receive is \$3200; \$826 less than what it costs the State to finance a student at a state university. The point is - the Independent sector does a much better job for a lot less money.

You and your parents are encouraged to take an active role, positive action, in urging Governor Brown to increase the level of funding for Cal Grant A Programs.

Now Hear This!

The trek through our Golden State of California during the month of January is still very much on! Unfortunately, some of our pre-registered students have dropped by the wayside leaving us with a much shorter budget. But we do not intend to scrap the trip! In fact, with a few more of you joining us, we can probably proceed with all the original plans. Why not drop by one of our offices (Father O'Brien in H431, or Sister James Marien in H413) and find out what is in store for you? We can guarantee a fun-filled experience, full of interest and variety, as we travel through the northern portion of the state for two weeks and then spend two weeks in the southern part. The cost is still a reasonable \$300 covering transportation, lodging and admission fees. Join us now! We'd love to share this adventure with as many as possible! REMEMBER: this is a Humanities credit.

With Gratitude

Many sincere thanks to the members of Pi Theta Mu who helped with the Chalon Open House on Sunday, November 16th, 1980. They were a great help with registration, as tour guides and general helpers. Thanks from all of us in the Admissions Office.

"VOICES FOR FREEDOM and the Hostage Bracelet Project

Millions of Americans are irate over the continuing delays in the release of the hostages. Negotiations for their release continue to be inconclusive. All want this settled and our representatives safely home now.

The purpose of "Voices for Freedom" is basically two-fold: First, to keep the issue before the grass-roots of America by encouraging citizens who care to wear a hostage bracelet bearing the name of one of our fifty-two Americans who are spending their 14th month in captivity; and second, to use the residue of funds from the project to provide college scholarships for the offspring of the eight servicemen who lost their lives in the aborted rescue mission. If you are interested in showing your concern and support for our fellow Americans in Iran, please contact the ASB Office or Jean Bidwell, Box 352.

ATTENTION: Humanities Majors

Concerned about how you will use your liberal arts degree? Consider attending this one-day seminar at UCLA.

Career Options for Humanities Majors

What are the career advantages of an education in the humanities? History, literature, languages and other humanities studies have always been recognized as valuable resources for individual enrichment. Do they also offer practical advantages in the development of a career?

This one-day program examines a wide range of options available to those who are majoring in or have earned a BA or advanced degree in the humanities. Representatives of business and industry join successful graduates in exploring the skills and personal resources that are developed by liberal arts studies and how these can be applied to new and established job markets.

News from the Art Department & Gallery

In celebration of the Los Angeles Bicentennial, The Photography Museum will present an exhibition of 120 black-and-white and color photographs at Mount St. Mary's College Art Gallery beginning February 16 through March 29. These images were prepared in 1980 as part of the Los Angeles Documentary Project. There will be an opening reception for the exhibition on the evening of February 16, from 8 to 10 p.m.

On February 18th we are sponsoring a seminar titled Women, Art & Careers. It will be held in Campus Center from 9:00 a.m. to 11:45. This seminar has proven to be most successful in the past so we urge all to participate.

Speakers

Committee working on two Spring events are happy to announce that in keeping with the Mount's tradition as a women's college and our current focus on LA:200, appropriate speakers have been secured.

Dr. Barbara Myerhoff, Chairman of the Anthropology department at USC, will give the Keynote address on Siena Day, Wednesday, April 29. Dr. Myerhoff has a longstanding interest in the elderly and her 1977 documentary Number Our Days, a study of senior citizens in the Venice area, won an academy award.

At our 1981 Commencement, the graduates and their guests will be addressed by Bella Lewitzky, co-founder of Dance Theatre, Los Angeles, and internationally recognized choreographer.. Ms. Lewitzky currently directs the Bella Lewitzky Dance Company which tours worldwide. She will speak on the Arts, their significance for both the individual and our society.

Jump Rope for Heart

Our sincere congratulations to all who contributed, be it morally, financially or physically to the "Jump Rope for Heart" program of Wednesday, January 21st. The day was well represented by several Mount participants and seems to be a truly fine

day for all, including our visito from the Heart Association. Your generosity is greatly appreciated and felt by not only those who put this drive together, but most and myself, a most sincere and "heart-felt" Thank you. Sincerely, Jean Bidwell; Karin Widner; Ann Albertoni; Maura Walsh.

* Results of the tally of contributions will be forthcoming.

Graduation Ball

If ANYONE is interested in helping plan the 1981 Graduation Ball. Please contact Trish at 589-1239 or 562-2256. Or leave your name and where you could be reached in Box 295 or Room 303. We need help, contributions and ideas. Everything will be appreciated.

Help Needed

ASB Service needs your help in planning for the second semester of the 1980-81 academic year. So far, we've been able to bring onto our campus several speakers (United Way, Molly McGee, and Natural Family Planning), a voter registrar, and a mobile blood unit. We've also sponsored a United Way Campaign and a needy family for Christmas. We've helped you locate CPR classes and will be providing in-depth training sessions in Natural Family Planning. And we've started a monthly evening with Campus Ministry called a "sharing session" where those who serve others in many different capacities can share their experiences. But, what are your needs for the second semester? Could you please suggest to us some speakers we might be able to bring up, some organizations that may need our help, or some individuals that may be in need? It's a big world... and we can only be of service when you show that you care and make the first step in helping someone. So, contact Tara Lashley (Room 1F2 or Box 457) or Debbie Pisano (Room 5A1 or Box 464) with your comments and suggestions. Thank you.

A Stamp Drive

Have you ever wanted to help the blind, but did not know how? Here is a very simple way which doesn't require a whole lot of effort. From February 9th to February 28th, ASB Service is collecting Cancelled stamps. The Junior Blind Sells the foriegn, commnerative and rare stamps to stamp collectors. With the regular 15¢ postage stamps, they extract the dye and sell it. The money is used to buy canes, seeing eye dogs, etc. All you have to do is cut a border around the stamp when you get a letter and then turn them in to the Student Development Office, TaraLashley (Rm 1F2, Box 457) or Debbie Pisano (5A1, Box 464). If you would like more information, please contact us. When you receive a letter, save the stamp, do not throw it away.

A Special Thank You

ASB Service would like to extend the thank you which was received on the behalf of the Christmas Family and Beverly Glines, the peraon responsible for giving us the needy family. "Please relay for us the thanks of the Christmas Family which your group so generously provided for. There were tears in the eyes of both parents when the tree, gifts, and food arrived. The children were very happy and there was an air of relief for the spirit of Santa Claus (human love and charity) still lives. We cannot know what far-reaching effects our charity may have. But I am sure that your Christmas family will want to help others and perhaps will pass on the kindness and love that you have showed to them. If they light their candle from your spark of love and pass it on - perhaps the whole world

could be made brighter. I send their appreciation and heartfelt thanks along with my own. I was priveleged to be the "middle-man." Sincerely Beverly Glines.

The time has once again come for the formation of the Graduation Committee. We invite interested Seniors and Juniors to submit an application to serve on the Committee to Box 22 by next Thursday, March 12.

In order to facilitate the workings of this year's committee, we are planning to have five Chalon students (three Seniors and two Juniors) on a Core Committee. This group will work with some representatives of the faculty and administration in organizing the framework of the Graduation. Each will then be asked to head one of the various sub-committees to plan the specific elements of the festivities: Information Distribution, Mary's Day, Baccalaureate Mass, Reception. Other Seniors and Juniors will join these sub-committees for the actual organization and follow through.

We ask that if you are interested in serving, either on the Core Committee or one of the sub-committees, that you pick up an application from the Communications Centers on 4th floor Humanities or the Campus Center. You will be able to designate which areas and levels you are most interested in, and will be asked to give reasons for wishing to serve.

We welcome any ideas and suggestions which any of you might wish to submit to the Committee. These also can be sent to Box 22.

Seniors - Reminder: Senior Social Night - April 8th.

Graduation Ball

As the school year approaches the end, it's time again for the Graduation Ball. The Graduation Ball is an all-college/inter-campus event honoring the graduating class of 1981. This year's ball will be held on April 11th (Saturday) at the fabulous Ambassador Hotel. Bids will be \$45. per couple and will go on sale Wednesday March 16th in the Little Theater foyer. Invite your friends and family to join us at the Graduation Ball of 1981.

What about Food?

Whether you are aware of it or not . . . there is a Food Committee. We try to work with Food Service to make changes which have been brought to our attention. There is one major problem! We are asking them to change things for the benefit of the students, yet the students are taking dishes and food out of the cafeteria. It is a major expence to buy new dishes; however if students continue to take dishes from the cafeteria, new dishes will have to be purchased. Since there is only a certain amount of money allotted to Food Service the money will have to come out of this budget - this may affect the quality of food they will be able to buy.

If you would like to change some aspect of the food in the cafeteria feel free to drop a note in Box 188 -- but we would like your cooperation too! Thank you.

Regarding Parking

It is important for the students to realize that the parking behind the Chapel is reserved for faculty. If unauthorized students park in this area, the faculty members will not know who is parked behind them. This causes problems if the teacher must get to another appointment. Please be considerate and do not park in reserved faculty parking. Thank you.

Attention all students

It is now time to return unsold textbooks. If you wish to purchase used books, do so no later than March 20th.

Bulletin

There will be no Student Bulletin for the next two weeks because of Easter vacation. The next bulletin will be dated May 3rd - 9th. DEADLINE: Thursday, April 30th, 9:00 a.m. in the Student Development Office.

WHAT YOU SHOULD KNOW ABOUT OUR WASC ACCREDITATION VISIT -- APRIL 29-30 and May 1:

What are the functions of the team?

- To evaluate the progress we have made in carrying out the recommendations of previous teams.
- To make a judgment as to how well, overall, our institution is doing what it claims to do and how well it complies with accreditation standards.
- To point out to us, and to the Accrediting Commission for Senior Colleges and Universities, and notable strengths and weaknesses that may significantly affect the education of our students.
- To recommend steps we might take to strengthen ourselves.
- To communicate its findings, judgments, and recommendations to the Accrediting Commission, which makes the actual decision on accreditation.

What will the team attempt to do?

- Assure itself that there has been widespread participation in our self-study.
- Become as intimately acquainted with us as circumstances permit.
- Answer any questions we have about accreditation.
- Listen to any member of our college community who wishes to be heard.
- Distinguish general or institutional issues, which could significantly affect the educational process, from limited or individual issues.

What will the team not attempt to do?

- Make an intensive analysis of each department and program, unless visiting a very small or single purpose institution. (Each team member will be assigned a STANDARD, not a particular academic department or administrative area.)
- Resolve all of our problems.

What will it try to avoid doing?

- Let the biases of individual team members affect the evaluation.
- Become embroiled in internal conflicts.
- Be concerned about minor issues.
- Usurp or interfere with the proper functions of faculty senates, professional organizations, the administration, or the governing board.

The team's oral report will be presented at 2 p.m., Friday, May 1, in the Little Theater. All members of the College community are invited to be present.

Advisement/Early Registration for Fall 1981

After the Easter vacation you will have to start thinking about your classes for 1981-82. (Can you believe it?) Registration materials will be ready to be picked up in the Registrar's Office on Wednesday, April 29. We will begin with those students who wish to keep the same room they are now occupying. It is our hope that the process will run smoothly and that all will be happy with the outcome. If any problems arise, please see Sr. James Marien.
